

Scrappin' Birthday Parties!!

(for boys and girls ages 7-14)

This year consider a unique birthday party for your child!

Each child will create the perfect mini storybook with any of the 4 Paper Album Kits shown to the left. There is no cutting required! The albums can be quickly assembled with photos using the coordinated, pre-cut decorative accessories. All the pieces to create a beautifully accessorized album are provided in the kit (including adorable die cuts, title & epoxy stickers). Each album features an assortment of prints, patterns and solids in fun eye-catching colors.

Details:

Each child will need to bring 15 of their favorite pictures. The cost is \$20/child and the event will last one hour. There is an event minimum of 5 (birthday child + 4 guests). It is recommended that one theme be selected (Garden Party/Purple Paisley/Bohemian/Preppy Patterns) & used by the birthday child and all the guests. I will come to your home to help instruct the kids in their project. Since this project is only an hour, you will still have time for cake, snacks & presents.

Brownies/Cub Scout option:

Another way to use these versatile kits is to use them for a Brownie (Try It "All in the Family" #2) or Cub Scout (Tiger requirement #1D, Bear elective #11,) project. The same fees apply if you want me to assist. However, if you want to handle it on your own, the cost is \$15 per kit.
